

APPLICATION PROJECT SPECIFICATIONS

Name of the Website : “Hail the Nail”

All about the website:

❖ Landing page includes:

➤ Header

- Logo
 - About Us (drop down)
 - Our Story
 - Our Team - A list of staff per branch so that users can choose their preferred nail technician
 - Services (drop down) - which contains a list of all the services that the wellness center would want to offer and their respective service fees. Each service the wellness center offers will have its own page, the “Book” or “Book Now” button is placed in each of all the services pages. Once the user clicks on the button the user will be redirected to the Booking page.
 - Manicure
 - Pedicure
 - Nail extension
 - Nail art
 - Cryotherapy (with video embedded)
 - Chemical peeling
 - Locations - which contains a list of branches of the wellness center with their respective addresses, contact information and opening hours.
 - What’s New - trends on nail polish, nail art or techniques
 - Promos - contains promos and discounted products and services
 - Book Now - the website includes a booking form for users to book their visits prior to going to any branch. The booking form includes name, email, mobile number, service/s to be availed, technician preferred, branch preferred, date and time of visit, number of guests and any request from the user. After filling the form, a prompt will appear, showing a message that the form is submitted.
